CALL FOR PAPERS

2026 16th International Conference on System Engineering and Technology (ICSET)

3-4 November 2026

International Hybrid Conference, Bandung

The advanced of available technology today makes it possible to develop a new class of applications and systems which opens a new frontier for research on applied control and computer technology. Interactivity and Connectivity become the norms that engineers need to consider in engineering process of the system.

Authors are invited to submit original, unpublished papers on myriad aspects. The acceptance decisions will take into account paper novelty, technical depth, elegance, practical or theoretical impact, and presentation.

Technical Areas

- Control Engineering
- Computer Engineering
- Information and System Engineering
- System Identification, Modelling, & Simulation
- Signal Processing, Speech Processing, Image Processing
- Cyber-Physical Systems
- Instrumentation and Automation
- Robotics
- Technological Advancements
- Human-Computer Interface, Virtual Reality, & Augmented Reality
- Assistive Technology, Brain-Computer Interface
- Artificial Intelligence & Intelligent System
- Electrical Power Engineering
- Data Science and Software Technology
- Biomedical Engineering
- Transportation (Intelligent Transportation System, Electric Vehicle and Its Systems).
