1. INTRODUCTION

We ask that authors follow some simple guidelines. In essence, we ask you to make your paper look exactly like this document. The easiest way to do this is simply to download the template, and replace the content with your own material.

1.1 Page Size

All material on each page should fit within a rectangle of 18 x 23.5 cm (8.27" x 11.69"), centered on the page, beginning 3.048 cm (1.2") from the top of the page and ending with 2.54 cm (1.0") from the bottom. The right and left margins should be 1.27 cm (0.5"). The text should be in two column 8.27 cm (3.51") columns with a spacing between them should be 0.25"

2. TYPESET TEXT

2.1 Normal or Body Text

Please use a 10-point Times New Roman font, or other Times New Roman font with light, as close as possible in appearance to Times New Romanin which these guidelines have been set. The goal is to have a 10-point text, as you see here. Please use

sans-serif or non-proportional fonts only for special purposes, such as distinguishing source code text.
If Times New Romanis not available, try the font named Computer Times New Roman light. On a Macintosh, use the font named Times New Roman. Right margins should be justified, not ragged.

2.2 Title and Authors

The title (Times New Roman20-point **Bold**), authors' names (Times New Roman 12-point) and affiliations (Times New Roman10-point) run across the full width of the page – one column wide. We also recommend e-mail address (Times New Roman10-point). See the top of this page for three addresses. If only one address is needed, center all address text. For two addresses and more follow as above, you may have to improvise.

2.3 Subsequent Pages

For pages other than the first page, start at the top of the page, and continue in double-column format. The two columns on the last page should be as close to equal length as possible.

Table 1. Table captions should be placed above the table

Parameter	Duration (Sec)
Intervals	
P-R interval	0.12-0.20
Q-T interval	0.30-0.40
Waves	
P wave duration	0.08-0.10
QRS duration	0.06-0.10

Table title should be bold and use 10-point Times New

Romanfont and Table content should be in 08-point, Times New Roman font.

2.4 Page Numbering, Headers and Footers

Do not include headers, footers or page numbers in your submission. These will be added when the publications are assembled.

3. FIGURES/CAPTIONS

Place Tables/Figures/Images in text as close to the reference as possible (see Figure 1). It may extend across both columns to a maximum width of 17.78 cm (7").

Captions should be Times New Roman10-point. They should be numbered (e.g., "**Table 1"** or "**Figure 2**"Times New Roman10-point**Bold**), please note that the word for Table and Figure are spelled out. Figure's captions should be centered beneath the image or picture, and Table captions should be centered above the table body.
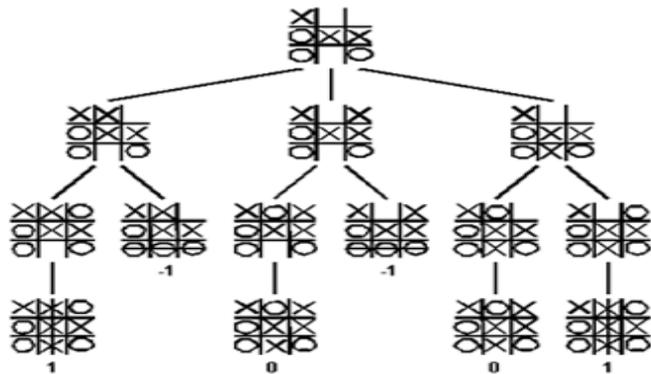

*Images can be extract in both column.

Figure 1: Paraent child hirarchy

If image is large and not set into the column then author may extend it across both columns to a maximum width of 17.78 cm (7") but setting of papers should not be affected.

4. SECTIONS

The heading of a section should be in Times New Roman 14-point Bold in all-capitals flush left with an additional 10-points of white space above the section head. Sections and subsequent sub- sections should be numbered and flush left. For a section head and a subsection head together (such as Section 4 and subsection 4.1), use no additional space above the subsection head.

4.1 Subsections

The heading of subsections should be in Times New Roman 12-point bold with only the initial letters capitalized. (Note: For subsections and sub subsections, a word like *the*or *a* is not capitalized unless it is the first word of the header.)

4.1.1 Sub subsections

The heading for sub subsections should be in Times New Roman 10-point italic and Bold with initial letters capitalized and 10-points of white space above the sub subsection head.

4.1.1.1 Sub subsections

The heading for sub subsections should be in Times New Roman 10-point italic with initial letters capitalized.

4.1.1.2 Sub subsections

The heading for sub subsections should be in Times New Roman 10-point italic with initial letters capitalized.

5. ACKNOWLEDGMENTS

Our thanks to the experts who have contributed towards development of the template.

REFERENCES

In this sectionits internal content should be in 8-point Times New Roman and arrangement to assign preference by descending order of year i.e. Current year paper will take first preferences than used previous year published paper references.

References should be numbered in order of appearance and indicated by a numeral or numerals in square brackets, e.g., [1] or [2, 3], or [4–6]. See the end of the document for further details on references.
